

Characteristic of LADA Thermos

**3
litres**

We insulate and preserve the quality!

- Are entirely built in stainless steel.
- Regulate the temperature automatically.
- Detachable tank by means of a thread.
- Have electric heating by resistor.
- Adjustable faucet in two positions.
- Great cleaning simplicity.

Ideal for:

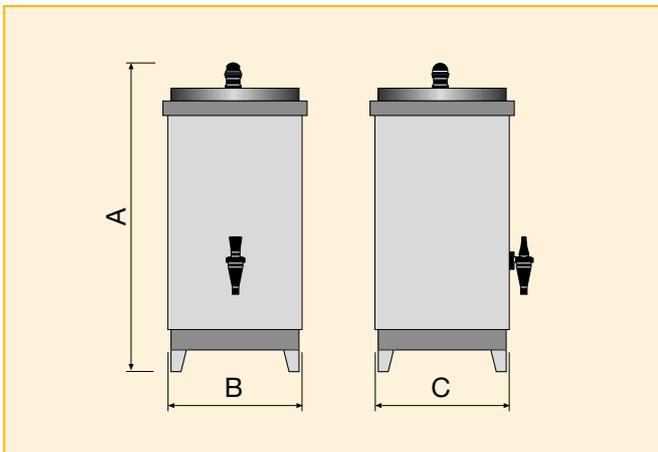

Milk, consommé, coffee, tea, hot chocolate, water ...

Small and versatile, available to satisfy the professional innkeeper necessity with a reduced milk consumption.

Ideal to complement the coffee machines, giving the milk heating service or water disposal for infusions avoiding this way the supply by the coffee machine and, as a consequence, prolonging the life of these machines.

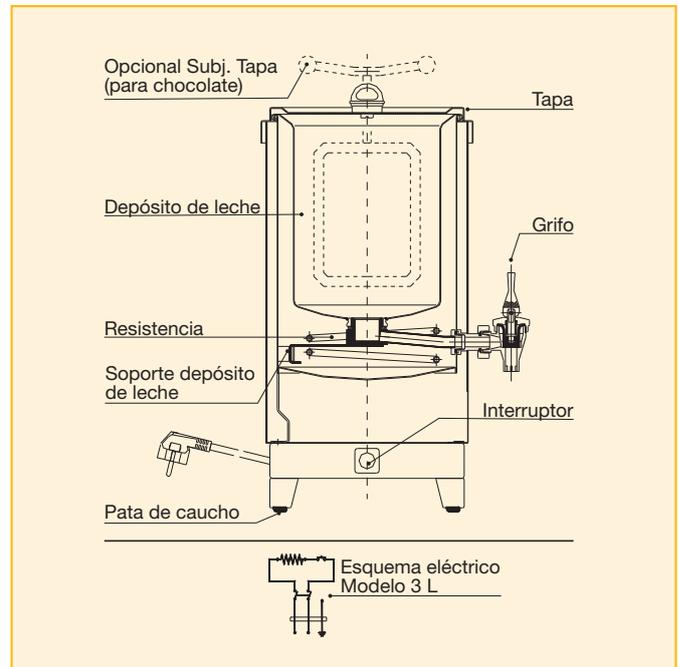

Technical data:

Capacity: 3 litres
Power: 1.000 w
Weight: 7 Kg
